

## **LORA CHEADLE, ESQ.**

Lora Cheadle is a corporate attorney turned author, speaker, women's advocate, and burlesque dancer. Her mission is to help women overcome the devastation of betrayal – whether by their body, life, or someone that they love – so they can reclaim their power, own their worth, and confidently engage in life again. Named a Top Influencer by Success Women's Conference, she has spoken on numerous stages, including the Women Economic Forum in New Delhi, India. Her work has been published in Thrive Global, Yoga Magazine, and Om Yoga Magazine, among others.

As a lawyer turned burlesque dancer, she has been discriminated against based on her perceived sexuality. After winning her first case ever, the judge saw fit to call her into his chambers and berate her for being too sexy and bold enough to win a case against an experienced, white, male attorney.

It's time for women to be bad asses about female sexuality, and to stop equating intellect, virtue, and worth with perceived chastity. It's time for women to come together, own their bold, sexy brilliance, and claim the legal rights, protections, and privileges they are due.
